

RKPT TECH LTD — MASTER WEBSITE & COMPANY DESCRIPTION

Business Services • Technology • Compliance • Growth

1. COMPANY POSITIONING

RKPT TECH LTD is a global business consulting and technology solutions firm specializing in helping individuals, entrepreneurs, startups, established companies and international businesses establish, operate and expand across international markets.

Our primary positioning is Business Services and Company Setup, supported by Technology Solutions. We combine business setup, financial, administrative, compliance and immigration support with IT, AI, software, cloud, automation and cybersecurity capabilities.

We do not simply help clients register a company. We help build the business infrastructure required to operate, protect and grow it.

2. CORE MESSAGE

Primary message:

BUSINESS. TECHNOLOGY. COMPLIANCE. GROWTH.

Secondary message:

Build. Operate. Transform. Protect. Grow.

Core proposition:

One integrated partner for business establishment, operational support, compliance and technology enablement across international markets.

3. VISION

To become a trusted global partner for businesses entering and expanding into international markets by delivering transparent, compliant and technology-driven solutions that enable sustainable growth.

4. MISSION

- Simplify cross-border business setup and operations.
- Deliver accurate, compliant and customized consulting services.
- Empower businesses through practical IT and digital solutions.
- Build long-term partnerships based on trust, performance and results.

5. CORE VALUES

Integrity & Compliance — We operate within applicable local and EU requirements.

Client-Centric Approach — Solutions are tailored to the client's business needs.

Expertise & Precision — Work is structured around experienced professional capabilities.

Innovation — We use technology to improve business operations.

Transparency — Clear processes, communication and service scope.

6. WHY CHOOSE RKPT TECH LTD

- Specialized expertise across Portugal, the UK, Ireland, Switzerland, the USA, Dubai/UAE and India.
- Integrated business, financial, compliance, immigration and technology capabilities.
- Local partner network across international markets.
- Multilingual and multicultural capability.

- End-to-end project ownership from assessment through implementation and ongoing support.
- Compliance-focused approach.
- Technology-driven operating model.
- Transparent processes and defined service scope.
- Support for businesses operating across multiple jurisdictions.

7. BUSINESS SERVICES — PRIMARY SERVICE AREA

From company formation to ongoing compliance and international expansion, RKPT TECH LTD helps clients establish and operate businesses through a structured approach.

7.1 Company Formation & Business Setup

- Business structure consultation
- Company registration and incorporation
- Shareholder and director documentation
- Registered office support
- Business licences and permits
- VAT registration and tax identification
- Articles of association and statutory filings
- Local representation where required

Jurisdiction examples:

Portugal — LDA formation and business setup

Switzerland — GmbH/AG setup and cantonal compliance

Ireland — LTD formation and CRO-related support

UK — UK company setup and operational support

USA — US company formation support

Dubai/UAE — Business setup and licensing coordination

7.2 Legal, Regulatory & Compliance Support

- Regulatory requirements and compliance coordination
- Statutory filings and company secretarial support
- Regulatory monitoring
- Risk and compliance advisory
- Coordination with appropriately qualified professionals where regulated legal advice is required

7.3 Accounting & Tax

- Bookkeeping and ledger management

- Local compliance orientation

7.6 Business Consulting & Advisory

- Business plan development
- Market-entry strategy
- Feasibility studies
- Financial modelling
- Investor pitch decks
- Virtual office services
- Business expansion advisory
- EU market compliance consulting

8. TECHNOLOGY SOLUTIONS — SECONDARY SERVICE AREA

Technology should make your business easier to operate, more secure and more scalable. RKPT TECH LTD designs practical digital solutions around business requirements.

8.1 IT Support & Managed IT

- Business IT support
- User and device support
- Microsoft/cloud environment support
- Business systems support
- IT troubleshooting and maintenance

- Ongoing technical support

8.2 AI Integration

- AI readiness assessment
- AI integration into business workflows
- AI-powered productivity solutions
- Document and knowledge automation
- Customer-service and internal AI solutions
- AI workflow monitoring and improvement

AI approach:

Assess → Design → Integrate → Automate → Monitor

8.3 Software Development

- Custom business software
- Web applications
- Mobile applications
- Business platforms
- Secure authentication
- API and system integrations
- Cloud and on-premise solutions

Development approach:

Discover → Design → Develop → Test → Deploy → Support

8.4 Website & Digital Solutions

- Corporate websites
- Business landing pages
- Multilingual websites
- GDPR-aware design
- SEO-ready architecture
- Website maintenance and support

8.5 ERP & CRM Solutions

- Custom ERP systems
- CRM integration
- Accounting and finance integration
- HR and payroll systems
- Business process systems
- Supply-chain and inventory systems
- Cloud-based and on-premise solutions

8.6 Cloud Solutions

- Cloud setup and migration
- Business productivity environments

- Cloud infrastructure support
- Backup and recovery
- Access and identity management

8.7 Business Automation

- Workflow automation
- Approval processes
- Document automation
- CRM and ERP workflows
- Reporting automation
- Integration between business systems

8.8 Cybersecurity

- Security assessment
- Endpoint and network protection
- Identity and access controls
- Backup and recovery planning
- Security monitoring
- Security awareness support
- Incident-response coordination

Security approach:

Assess → Protect → Monitor → Respond → Improve

19. LEGAL & SERVICE DISCLAIMER

Information on this website is provided for general information and business-support purposes. Company-formation requirements, tax rules, immigration requirements, licensing conditions, banking requirements and regulatory obligations vary by jurisdiction, business activity and individual circumstances.

Government authorities, banks and regulated institutions make their own decisions and may request additional documentation. Processing times are indicative and are not guarantees.

RKPT TECH LTD does not guarantee company registration, bank-account approval, tax registration, visa approval, immigration approval or any other third-party decision.

Where regulated legal, tax, accounting, immigration or other professional advice is required, RKPT TECH LTD may coordinate with appropriately qualified professionals.

20. DEVELOPER & DESIGN REQUIREMENTS

- Build a responsive one-page scrolling website as the primary experience.
- Business Services must appear before Technology Services.
- Do not present RKPT as an e-commerce service provider. Remove e-commerce from services, industries, navigation, packages, forms and SEO.
- Place the seven Global Hub buttons high on the page, immediately after the Hero/intro.
- Use anchor navigation and smooth scrolling.
- Give every major service a concise card with expandable details.
- Use strong CTAs throughout: BOOK A CONSULTATION, REQUEST A QUOTE, EXPLORE OUR SERVICES.
- Make the seven hubs visually prominent and clickable.
- Support desktop, tablet and mobile.
- Keep typography clean, premium and readable.
- Use consistent professional icons.
- Use subtle animations only: fade/slide on scroll, hover states and smooth transitions.
- Use a sticky header on desktop and mobile.
- Add a floating consultation/contact CTA on mobile.
- Build the contact form so it can later connect to CRM/email.
- Structure the site so sections can later become dedicated pages.
- Use SEO-friendly H1/H2/H3 hierarchy.
- Add structured data only where accurate and supported.
- Optimise images, lazy-load non-critical media and target strong Core Web Vitals.
- Prioritise accessibility: keyboard navigation, contrast, alt text, labels and visible focus states.
- Include Privacy Policy, Cookie Policy, Terms and Legal Disclaimer links.
- Do not make legal, tax, immigration or banking guarantees.
- Do not publish unverified fees or government processing times on the homepage.
- Frame regulated services as support/coordination where appropriate.
- Add analytics/conversion tracking for consultation clicks, quote requests, form submissions and hub selections.

21. SEO FOUNDATION

Primary positioning keywords:

Business Setup

Company Formation

International Business Setup

Company Formation Portugal

Company Formation UK

Company Formation Ireland
Company Formation Switzerland
US Company Formation
USA Business Setup
Dubai Business Setup
UAE Business Setup
India Business Setup
Business Immigration Support
Business Banking Support
Accounting & Tax
IT Support
AI Integration
AI Business Automation
Software Development
Cybersecurity
International Business Expansion

Do not use e-commerce or online-store service keywords.

22. BRAND / DESIGN DIRECTION

Overall feel:

Premium international business + technology.

Visual direction:

Use a sophisticated, modern corporate aesthetic. A subtle world-map or connected-hub concept can reinforce the international positioning. Avoid generic handshake stock photography.

The visual hierarchy must communicate:

1. Business Services
2. Technology
3. Compliance
4. International capability
5. Growth

The site should communicate competence, structure, transparency and international reach without making unsupported promises.

23. MASTER BRAND STATEMENT

RKPT TECH LTD helps businesses build, operate, protect and grow across international markets.

From company formation, accounting, tax, banking, compliance, immigration and relocation support to IT, AI, software, cloud, automation and cybersecurity, RKPT brings complementary business and technology capabilities together under one operating partner.

Our objective is simple: reduce complexity, create a structured path from setup to operation, and provide the business infrastructure required for sustainable international growth.
